SURF ING

SHORT BOARDS

MADE IN EUROPE 

ST-RIPPER

SHORTBOARD

The ST Ripper is designed for PRO-STYLE surfing and is absolutely insane in small waves. Super tight turning, ultra-quick board response and amazing performance potential.

The ST-Ripper works best in the wave pocket and absolutely loves fast, tight faced waves. If your style is off-the-tail, the ST-Ripper will be the best surfboard of your choice...

MADE IN EUROPE 

TAIL FEATHER

SHORTBOARD

It is a version of the "Bondage" with slight changes. The most significant thing was to remove the swallow tail in order to add grip in turns by a substitute diamond-tail. These type of boards are fashionable right now and you have to adapt to changing times.

- ▶ CAD-CAM Custom Made

MADE IN EUROPE 

SADO-M

SHORTBOARD

Evolutions and solutions to ensure performance to high-level surfers in most surf conditions. Sado-M requires a good surfing level to get all of the available performance because the measurements are very tight so there is no extra gift to guarantee the easy ride.

Put it all out there!

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam

MADE IN EUROPE 

HOT CHIP

SHORTBOARD

The Hot Chip shortboard loves to surf tight in pocket sized and hollow waves. Really fast design that can handle power maneuvers with a concave under the front foot and "V" under the back foot. Slightly narrower with a rounded squash tail. Performs well in bigger surf.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System
- ▶ Made in Europe

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN

5'10"	26 lt. C.A	5'10" (178 cm)	19,6" (49,8 cm)	2,4" (6,1 cm)	3 x FCS2

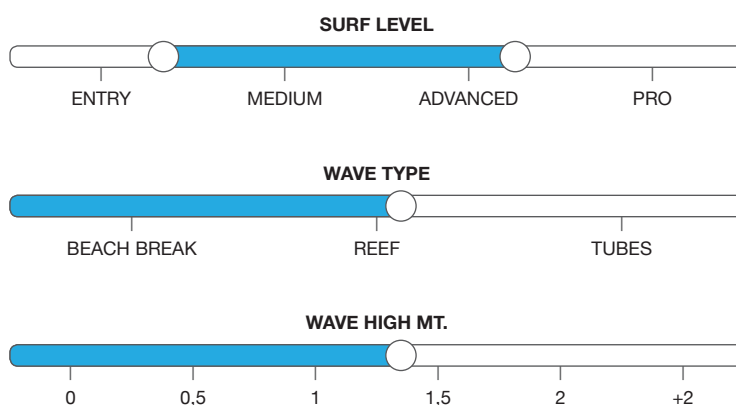

MADE IN EUROPE 

STROKE

SHORTBOARD

Developed and designed for typical Mediterranean conditions. The Stroke is the XL version of Hot-Chip model for small to medium waves. Sharp edges on tail and progressive rockerline for acceleration meke produce a very loose board in turns and extremely easy to paddle in to waves.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System
- ▶ Made in Europe

MADE IN EUROPE

TOY-B

INNOVATIVE

The TOY-B rides free and easy in the smallest surf and catches waves like bigger boards. Ideal for mushy surf and small waves thanks to its' double concave bottom, which produces maximum speed. The large volume and stubby shape will allow you to ride a smaller board compare to regular short boards therefore you can order your TOY-B 3" to 6" shorter than you are tall in height.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System
- ▶ Made in Europe

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN

MADE IN EUROPE 

SKEG

INNOVATIVE

Early planing with maximum volume in our shortest board of the collection. The Skeg has a pronounced concave on the bottom by the fin area to facilitate turning. Different feeling compared to regular boards and very accessible and easy to use in small surf.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System
- ▶ Made in Europe

MADE IN EUROPE 

CK-SUPREME

MODERN FISH

If you want to catch waves easily but don't want to ride a longer board, the NoveNove CK-SUPREME is the best surfboard for you. It has the same riding feel as a Classic Retro model but with much better paddling ability. A great board for all-round surf conditions from small to medium size waves.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System
- ▶ Made in Europe

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN

6'1"	33 lt. C.A	6'1" (186 cm)	20,5" (52,1 cm)	2,7" (6,9 cm)	3 x FCS2

MADE IN EUROPE 

MANHATTAN

PROGRESSIVE

Ideal for learning and for surfers that are looking for maximum comfort in a low volume board. The width and rocker are not too extreme with the objective to make an easy model to surf allowing simple maneuvers in almost all types of waves.

MADE IN EUROPE 

RIP KID BOARD

It is ideal for guys / girls and young children whose only experience has been with school style soft boards. The intention is to avoid that the new generation do not make the same mistake again by starting with second hand boards that are too extreme and radical. The RIP is designed with vee and concave to allow fast take off and easy acceleration.

**EGG &
MALIBU**

HUOVO

EVOLUTIVE EGG

All-round mid-sized board which is pure fun and can be enjoyed by anyone, anywhere, anytime. The beveled rail gives this board an easy rail to rail transition. The Egg is a thicker short to medium length board with a relatively flat rocker and was designed for an easy turning ability in small / weaker waves. It is a very fast paddler that will help you catch waves all day long. This will most likely become your go to board for most conditions and has great ability to generate speed out of the smallest waves. The fullness is held out to the rails, which are beveled all the way around to provide maximum forgiveness. This simple design is also popular with anyone looking for a fun surfboard that is comfortable to jump on in any condition.

LONG BOARDS

ESPLENDIDO

MADE IN EUROPE 

ESPLENDIDO

PERFORMANCE LONGBOARD

This three fin modern longboard will undoubtedly turn amazingly well in the pocket and cut back into the waves power source on a razors edge. Despite a misconception in the market that only the single fin can nose-ride amazingly, this board with the three fins and a sharp edge through the tail will hold and trim through many steep sections while riding the nose... If you have not experienced a light three fin longboard for all the many things it offers well then let the 9'3" of pure harnessed speed and power named "Esplendido" drive your next surfing experience!

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam

- ▶ Matt Pro finish
- ▶ FCS Finbox System + US Boax
- ▶ Made in Europe

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN
9'3"	69 lt. C.A	9'3,5" (283,2 cm)	23,1"(58,6 cm)	2,9" (7,4 cm)	2 x FCS + 1 Single US Box

MOANA

ALLROUND LONGBOARD

Lightweight, speedy, all-round longboard. A full rocker board with speed and including a single-to-double concave, the Moana provides shortboard capabilities to an all-round longboard. Designed for surfing in most wave conditions, this boards is pure joy!

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Glossy finish
- ▶ FCS Finbox System + US Box

NOSERIDER

CLASSIC LONGBOARD

The Noserider is designed for nose-riding and glide in small to flat conditions. This model turns on a dime and it is the ultimate small to medium 'surf nose rider' longboard. This board is a fine blend of what makes each style work. The nose section is full and stable and proportionally pulls into a performance tail with a 2 plus 1 fin set up and it also has a flatter rockerline, wide nose and even plane shape & a square tail with a good tail lift to help glide through turns. Tucked edges and a subtle concave compliment the boards' design.

- ▶ CAD-CAM Custom Made
- ▶ Superwhite PU Foam
- ▶ Glass / Polyester
- ▶ Matte Pro finish
- ▶ FCSII Finbox System + US Box

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN
9'6"	75 lt. C.A	9'6 (290 cm)	22,8" (58 cm)	3,0" (7,5 cm)	2 x FCS + 1 Single US Box

SOFTOPS

RESCUE

SURF RESCUE

10'6" soft top Rescue is a perfect blend of weight and durability. The board feature EVA strips (approx. 1/4"), PVC bottom, neoprene handles, fin, leash plug. RESCUE markings on the top and bottom of the board.

- ▶ 36 kg EPS core, deck and bottom with HD Glass fibers
- ▶ Expanded CS-PE soft deck and PE slick surface bottom.
- ▶ EVA Strips for knee paddling comfort
- ▶ EVA protection on nose and tail
- ▶ 1 Wood stringer

MODEL	VOLUME	LENGTH	WIDTH	THICKNESS	FIN

KITES**

MADE IN EUROPE 

RAFATZ

HYBRID BIG WAVE - KITE SURFBOARD

RAFATAZ is a true big wave board designed for high-performance riding in more powerful waves or stronger wind conditions with flat water.

The thruster fin set-up and rounded pin tail allows superior control when carving at full speed. Novenove recommends Rafatz set on strapless configuration for its pure surfing feel!

FEATURES:

- Hybrid Big Wave
- Bamboo construction on the deck
- Custom EVA PAD (optional)
- Tri-fin Future fin system setup for carving and stability - fins not included

- ▶ CNC PU Core with lightweight stringer.
- ▶ Silmar™ polyester resin for layup and Reichold™ resin for finishing
- ▶ E and S X-cel® glass bottom and deck layup.
- ▶ Full deck bamboo with bi-axial glass heel reinforcement patches.
- ▶ Future boxes with HD PVC reinforcement blocks.

MADE IN EUROPE 

TWISTO

HYBRID X-SMALL WAVE - KITE SURFBOARD

The TWISTO is a small wave and freestyle strapless kite surfboard slightly wider than normal and with extra volume that excels in light wind or onshore conditions. Available in two sizes, 5'8" for smaller riders and 5'11" for larger riders. A full hybrid surfboard blending the best characteristics of our shapes and resulting in ultra high-performance strapless models. You don't need waves to have fun on this board. It planes up in very light winds and will let you use a much smaller kite than you might expect, fun!

FEATURES:

- Hybrid x-small Wave
- Bamboo construction on the deck
- Custom EVA PAD (optional)
- Tri-fin Future fin system setup for carving and stability
- Fins not included

- ▶ CNC PU Core with lightweight stringer.
- ▶ Silmar™ polyester resin for layup and Reichold™ resin for finishing
- ▶ E and S X-cel® glass bottom and deck layup.
- ▶ Full deck bamboo with bi-axial glass heel reinforcement patches.
- ▶ Future boxes with HD PVC reinforcement blocks.

5'11"	30 lt. C.A	5'11" (181 cm)	19,5" (49,5 cm)	2,5" (6,4 cm)	3 x Future Fins

MADE IN EUROPE 

GRULLY

HYBRID LIGHT WIND - KITE SURFBOARD

The Grully is designed for light wind and small waves. It combines functionality and low wind performance to produce a very fun ride in small waves and also for practicing transitional tricks in flat water. The volume will keep you going even in the lightest conditions. Excellent choice for people transitioning to a directional strapless kiteboard and approaching a full power surfing style.

FEATURES:

- Hybrid Light Wind
- Bamboo construction on the deck
- Custom EVA PAD (optional)
- 5 Future fin system for all setup - fins not included

- ▶ CNC PU Core with lightweight stringer.
- ▶ Silmar™ polyester resin for layup and Reichold™ resin for finishing
- ▶ E and S X-cel® glass bottom and deck layup.
- ▶ Full deck bamboo with bi-axial glass heel reinforcement patches.
- ▶ Future boxes with HD PVC reinforcement blocks.
