ST-RIPPER SHORTBOARD

The St-Ripper is designed for PRO-STYLE surfing and is absolutely insane in small waves. Super tight turning, ultra-quick board response and amazing performance potential..The ST-Ripper works best in the wave pocket and absolutely loves fast, tight faced waves. If your style is off-the-tail, the ST-Ripper will be the best surfboard of your choice...

MADE IN EUROPE

TAIL FEATHER SHORTBOARD

It is a version of "Bondage" with slight changes. The most significant thing was to remove the swallow tail in order to add grip in turns by a substitute diamond-tail. This type of boards a fashionable now and you have to adapt to time-changes.

MADE IN EUROPE

TOY-B

INNOVATIVE

The TOY-B rides free and easy in the smallest surf and catches waves like bigger boards. Ideal for mushy surf and small waves, thank to its double concave bottom, who produce maximum speed. The Large volume and stubby shape will allow you to ride a smaller board compare to regular shortboards therefore you can order your TOY-B 3" to 6" shorter than you are tall.

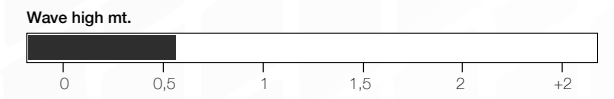

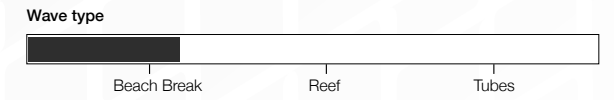

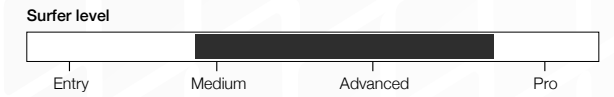

MADE IN EUROPE

SKEG

INNOVATIVE

Early planning with maximum volume in our shorter board of collection. Has a pronounced concave on the bottom by the fins area to facilitate turning. Different feelings to regular boards and very accessible easy to use in small surf.

RAFATZ

HYBRID BIG WAVE - KITE SURFBOARD

RAFATAZ is a true Big Wave board, designed for high performance riding in bigger and powerful waves or stronger winds conditions in flat water. The thruster fin set-up and rounded pin tail allow superior control when carving at full-speed. 99novenove recommend Rafatz set on strapless configuration for its pure surfing feel!

FEATURES:

- Hybrid Big Wave
- Bamboo construction on deck
- Custom EVA PAD (optional)
- Tri-fin Future fin system setup for carving and stability
- Fins not included

MADE IN EUROPE

HY-BRO

HYBRID SMALL WAVE - KITE SURFBOARD

HI-BRO is a performance kite surfboard that will handle every type of condition. The board design is thought for powerful strapped or strapless riding and permit best combination of speed, control and drive. HI-BRO is designed for small waves with regards to its versatility as true allround board. The Bamboo Tech construction provides superior feel and strength.

FEATURES:

- Hybrid Small Wave
- Bamboo construction on deck
- Custom EVA PAD (optional)
- 5 Future fin system for all setup
- Fins not included

HUOVO

EVOLUTIVE EGG

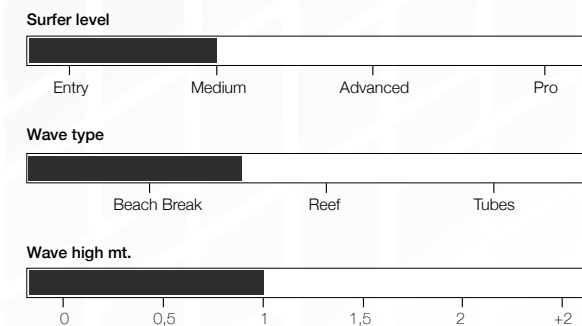

All-round conditions Mid-board. This board is true fun and can be enjoyed by anyone. The beveled rail gives this board an easy rail to rail transition. The Egg is a thicker short to medium length board with relatively flat rocker and was designed for easy turning ability in small, flat, weak waves. It is a very fast paddler that will help you catch waves all day long. This will most likely become your go to boards for most conditions. Has great ability to generate speed out of the smallest waves. The fullness is held out to the rails, which are beveled all the way around to provide maximum forgiveness. This simple design is also popular with anyone looking for a fun surfboard that is comfortable to jump on in any conditions.

LA WOMAN

GIRL EGG

Dedicated entirely to our surf-girls who first approach surfing or will appeal to perform all over the world. Same shape as the HUOVO, LA Woman is designed with inn proportional dimention's to alow body-weigh and power suited to girls style with that touch of estetical look that makes this board a real beauty of the ocean.

NOSERIDER

CLASSIC LONGBOARD

The Noserider is designed for nose-riding and glide in small to flat conditions. This model turns on a dime. Is the ultimate small to medium surf nose rider longboard. Is a fine blend of what makes each style work. The nose section is full and stable and proportionally pulls into a performance tail with a 2 plus 1 fin set up. It has a fallter rockerline, wide nose and even plane shape & a square tail with a good tail lift to help glide through turns. Tucked edges ad subtle concave compliment the board's design.
